Unlock the Power of Intelligent Video Surveillance and Access Control

Introducing FocusAI and Spintly

In today's rapidly evolving world, security and efficiency are paramount for businesses and institutions of all sizes. FocusAI and Spintly have joined forces to bring you an unparalleled solution that seamlessly combines intelligent video analytics and mobile-forward access control. Elevate your security, reduce costs, and simplify management with our cutting-edge technology duo.

The Perfect Partnership

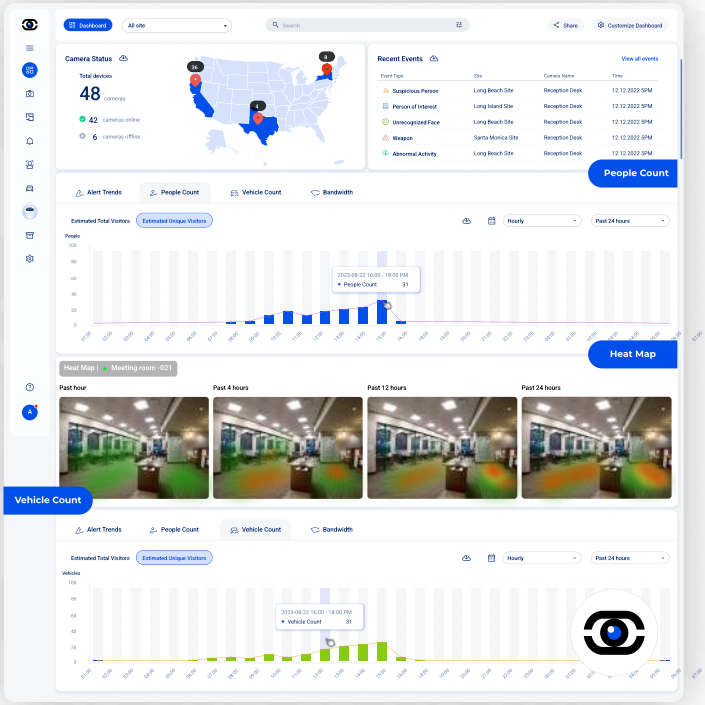
When you combine FocusAI and Spintly, you get more than just products—you get peace of mind. Our partnership ensures that your security needs are met comprehensively, efficiently, and cost-effectively. Say goodbye to the hassles of managing disparate systems and embrace the future of intelligent security.

Discover the Future of Security Today

Don't miss out on the opportunity to revolutionize your security infrastructure. With FocusAI and Spintly, you can unlock unparalleled cost savings, efficiency, and peace of mind. Embrace the future of intelligent video surveillance and access control. Contact us today to learn more and experience the power of FocusAI and Spintly in action. Your security, simplified.

FocusAI: Intelligent Video Surveillance Made Simple

Experience the future of video surveillance with FocusAI.



- Run Sophisticated Analytics at the Edge: The FocusAI Vantage portal aggregates all of your intelligent video data in real-time for enhanced safety and security, real-time decision making as well as improved business insights.
- Cost Savings: Eliminate unnecessary on-site hardware and reduce maintenance costs with automatic updates.
- Plug-and-Play Setup: Get cameras up and running in minutes, not hours.
- Scalability: Effortlessly add cameras as your needs evolve. Also works with 3rd party cameras.
- Reduced Bandwidth: Transmit only critical data to the cloud for efficient network utilization.
- Privacy: Encrypted video and camera communications to FocusAI Vantage.
- Reliability: Record video even during network outages.

Spintly: Modern Access Control with a Twist

Spintly is a mobile-forward access control system. Pair it with FocusAI for a holistic security solution that offers:

- Streamlined Access Control: Secure your premises effortlessly.
- Unified Surveillance: Seamlessly integrate video surveillance for enhanced security.
- Remote Management: Manage access control for multiple sites remotely.
- Improved Incident Response: React promptly to any security events.
- Cost Savings: Spintly wireless mesh Solution is easy to install, Set-up and Saves Cost
- Perfect for Offices, Schools, and Beyond: Versatile solutions for any environment.
