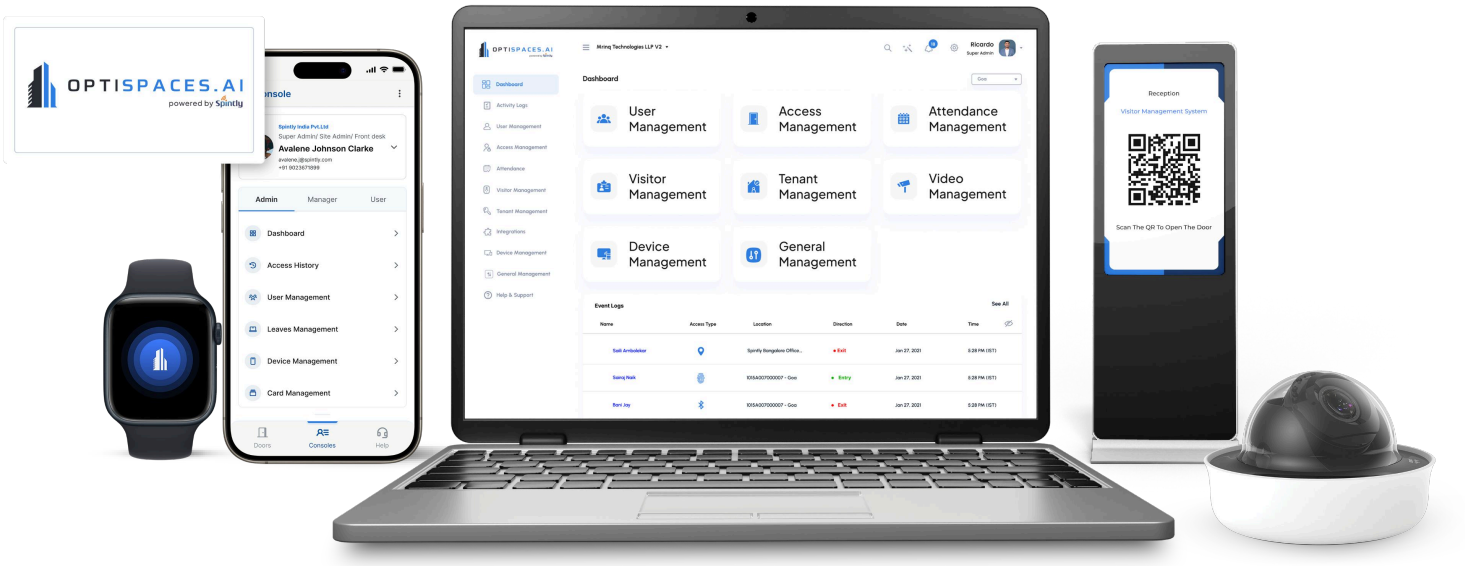
FOR IMMEDIATE RELEASE

Spintly Announces The Rebranding Of Its Software Suite For Commercial Smart Spaces As *OptiSpaces.Ai*



OptiSpaces Combines Seamless Access Control With AI-Powered Video Analytics For Advanced Security

OptiSpaces.ai, is the new face of Spintly's software offering targeted towards the mid size commercial real estate applications in the Asia Pacific region. This represents a significant move toward futureproofing access management technologies for businesses in the region.

It is a comprehensive security suite which includes smart Access Control, Visitor Management, Time Attendance Management, Tenant Management, and Video Management system - all powered by AI and hosted on the cloud.

This launch signifies a big step in our journey to simplify security management for smart spaces and buildings.

The platform is designed for a diverse range of environments including small , midsize or large enterprises, commercial real estate, coworking spaces, business parks, data centers, warehouses, and educational institutions. It brings together all aspects of building management under one digital roof. It is infinitely scalable to accommodate users' evolving needs and is designed for easy operation, embodying intelligent security for smart buildings.

It simplifies integration with existing infrastructure, reduces complexity, and optimizes licensing. This ease of upgrade and management ensures a seamless shift to the cloud, helping organizations leverage the full potential of their security investments.

A Closer Look at OptiSpaces.ai's Solutions

Access Control – Consolidate access badges, fobs, and keys into your smartphone with a modern access management system that utilizes cloud, smartphone, and wireless technology.

Visitor Management – Streamlines the process of managing visitors, from pre-registration to departure, ensuring a smooth experience.

Time Attendance Management – A powerful cloud-based time & attendance management solution to complement your Access Control System.

Tenant Management – Designed to streamline access control for all your tenants.

Video Management – With advanced AI capabilities, spintly's video management system analyzes real-time footage and archived videos for enhanced security surveillance.
