PRESS RELEASE

FOR IMMEDIATE RELEASE

Spintly x Nvidia Inception Program announcement

Spintly is delighted to announce its acceptance into the **NVIDIA Inception Program**, a global initiative designed to nurture startups that are pushing the boundaries of AI, data science, and GPU-accelerated innovation. This partnership positions Spintly at the forefront of technological advancement, enabling our team to create better, faster, and more revolutionary solutions for the physical security space.

This enables Spintly to bring NVIDIA technology to the smart buildings market.

Key Benefits of NVIDIA Inception for Spintly

- **GPU Powerhouses:** We need NVIDIA's GPU technology for speeding up AI, machine learning, and data analytics – all key parts of Spintly's platform to scale.
- **Exclusive Resources:** We get discounts on hardware and advanced software tools like SDKs and frameworks from NVIDIA, which will boost our development.
- **Expert Guidance:** We can count on NVIDIA's technical teams and AI specialists to help us optimize our workflows and create more intelligent solutions.

Making AI the Core of Spintly:

This partnership is not only about technology. With NVIDIA's support, Spintly is embedding advanced AI capabilities into its solutions, enabling sophisticated features like real-time people counting, behavior analysis, and vehicle recognition and more.

Here's how:

- **Real-Time Intelligence:** Faster, more accurate AI models mean smarter, more responsive solutions for our users.
- **Enhanced Automation:** We're using GPU acceleration to streamline workflows and boost operational efficiency.
- **Smarter Insights:** NVIDIA powered analytics tools allow us to unlock deeper data insights for our customers.

What Our Leadership Says

NVIDIA is a leader in the AI space with its cutting edge GPUs, and getting Spintly into their Inception Program really feels like they believe in what we are building here.

~ Rohin Parkar (CEO & Co-Founder of Spintly)

It is a privilege to be a part of NVIDIA's Inception Program, it not only powers our technological dreams but passes a spark of innovation through every layer of our security solutions. This collaboration is a key to creating the next generation of access controls that are not only intelligent but also deeply connected with the modern security needs. The technology and knowledge of NVIDIA is essential in order to stretch the boundaries and enable us to provide our customers with unparalleled benefits.

~ Malcolm D'Souza (CTO & Co-Founder of Spintly)

This partnership does not end with the improvement in our technology, it is changing the way we innovate completely.
